

SUMMARY

React Developer Intern with practical experience in developing and maintaining full-stack web applications using React.js, Node.js, Express, and MongoDB. Actively expanding backend and system design skills while working on production-level projects including a Lead Management System and Freelance_Connect platform. Skilled in building responsive UIs, API integration, and solving real-world problems in a fast-paced environment. Committed to continuous improvement and delivering high-quality, user-focused solutions.

EXPERIENCE

Tenup Software Services

12/2025 - Present

Vadodara

Designation: React Developer Intern

- Developing and maintaining responsive web applications using React.js, JavaScript, and Tailwind CSS.
- Building reusable UI components and improving application performance and user experience.
- Collaborating with backend developers to integrate REST APIs and manage application state.
- Actively contributing to full-stack development by working with Node.js, Express, and MongoDB for backend features.
- Participating in code reviews, debugging, and optimizing existing features in a production environment.
- Gaining hands-on experience with real-world development workflows, deadlines, and team collaboration.

Project : Lead Management System

- React.js, Node.js, Express, MongoDB
- Built a full-stack web application to manage leads, track status, and improve sales workflow efficiency.
 - Developed dynamic dashboards and forms using React.js for smooth user interaction.
 - Implemented backend APIs using Node.js and Express to handle lead creation, updates, and authentication.
 - Designed and managed MongoDB schemas for storing and organizing lead data.
 - Integrated frontend with backend services to ensure secure and efficient data flow.

Project : Lotsy E-Commerce Website

Project Live Demo : [Lotsy E-Commerce Website](#)

- Designed and developed a production e-commerce website with Shopify.
- Implemented dynamic product listings, collections, and cart functionality.
- Built a responsive, high-performance user interface optimized for mobile and desktop users.
- Customized frontend components to align with brand identity and improve customer engagement.
- Delivered a live, customer-ready platform used for real online sales.

Project : Foxplay Clothing E-Commerce Website

Project Live Demo : [Foxplay Clothing E-Commerce Website](#)

- Developed and customized a live e-commerce fashion website with Shopify.
- Customized UI components and layouts to match brand identity and improve user experience.
- Ensured mobile-first responsive design and optimized site performance.
- Delivered a production-ready platform actively used for real online sales.

EDUCATION

Master of Computer Application| Sardar Patel University

09/2024 – Ongoing

Anand

Bachelor of Computer Application| Sardar Patel University

09/2021 – 03/2024

Anand

GPA: 7.75

SKILLS

Frontend Development : HTML, CSS, JAVASCRIPT, BOOTSTRAP, REACTJS, GIT, TAILWIND CSS

Backend Development : Node.js (Working knowledge), Express.js (Working knowledge), PHP (Familiar with), RESTful APIs(Experience with integration), JWT Authentication (Basic understanding)

Databases : MongoDB (Working knowledge), MySQL / SQL (Familiar with)

Tools & Platforms : Git & GitHub, Postman, VS Code, Chrome DevTools

Development Practices :API Integration, Debugging & Testing, Clean Code Practices

ACADEMIC PROJECT

Freelance-Connect

- PHP, MySQL, JavaScript, HTML, CSS
- Designed and developed a freelancing platform from scratch using PHP for backend logic, MySQL for database storage, and front-end technologies (HTML, CSS, JavaScript).
 - Implemented user authentication, project posting, and user interaction features to connect clients and freelancers.
 - Built dynamic UI views and forms to support user registration, login, and project browsing.
 - Structured relational database tables and managed data flow securely between the frontend and backend.
 - Focused on maintainable architecture and a clean codebase to facilitate future enhancements.
