| <https://www.linkedin.com/in/meet-modasiya>

Summary

- Full-stack developer skilled in React, Node.js, MongoDB, and PHP. Built and deployed real-world applications including a lead management system, e-commerce platforms, and a freelancing platform. Focused on building scalable, user-focused web apps with clean UI and efficient backend systems.

Experience

Tenup Software Services

12/2025 - 04/2026

Vadodara

Designation : Web Developer Intern

- Built a full-stack Lead Management System to track and manage leads with role-based access (Admin/Agent).
- Developed responsive dashboards using React and implemented secure REST APIs with Node.js and Express.
- Designed MongoDB schemas to handle lead data efficiently and ensured smooth frontend-backend integration.
- Deployed as a working application for real-world usage.

Project : Lead Management System

Project Live Demo : <https://leadflow-sigma-brown.vercel.app/>

React.js, Node.js, Express, MongoDB

- Built a full-stack web application to manage leads, track status, and improve sales workflow efficiency.
- Developed dynamic dashboards and forms using React.js for smooth user interaction.
- Implemented backend APIs using Node.js and Express to handle lead creation, updates, and authentication. Designed and managed MongoDB schemas for storing and organizing lead data.
- Integrated frontend with backend services to ensure secure and efficient data flow.
- Integrated AI API to generate lead summaries and follow-up messages, improving sales communication efficiency.

E-Commerce Platform – Lotsy (Shopify)

Project Live Demo : <https://www.lotsy.in>

- Designed and developed a production e-commerce website with Shopify.
- Implemented dynamic product listings, collections, and cart functionality.
- Built a responsive, high-performance user interface optimized for mobile and desktop users.
- Customized frontend components to align with brand identity and improve customer engagement. Delivered a live, customer-ready platform used for real online sales.

E-Commerce Platform – Foxplay (Shopify)

Project Live Demo : <https://www.foxplayclothing.com>

- Developed and customized a live e-commerce fashion website with Shopify.
- Customized UI components and layouts to match brand identity and improve user experience. Ensured mobile-first responsive design and optimized site performance.
- Delivered a production-ready platform actively used for real online sales.

Education

Master of Computer Application | Sardar Patel University

09/2024 – Ongoing

Anand

Bachelor of Computer Application | Sardar Patel University

09/2021 – 03/2024

Anand

GPA: 7.75

SKILLS

Frontend Development : HTML, CSS, JAVASCRIPT, BOOTSTRAP, REACTJS, GIT, TAILWIND CSS

Backend Development : Node.js, Express.js, PHP, RESTful APIs, JWT Authentication

Databases : MongoDB, MySQL / SQL

Tools & Platforms : Git & GitHub, Postman, VS Code, Chrome DevTools

Development Practices : API Integration, Debugging & Testing, Clean Code Practices

ACADEMIC PROJECT

Freelance Marketplace Platform (PHP, MySQL)

PHP, MySQL, JavaScript, HTML, CSS

- Designed and developed a freelancing platform from scratch using PHP for backend logic, MySQL for database storage, and front-end technologies (HTML, CSS, JavaScript).
- Implemented user authentication, project posting, and user interaction features to connect clients and freelancers.
- Built dynamic UI views and forms to support user registration, login, and project browsing.
- Structured relational database tables and managed data flow securely between the frontend and backend.
- Focused on maintainable architecture and a clean codebase to facilitate future enhancements.
