PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience building and deploying real-world web applications using React, Node.js, Express, and MongoDB. Delivered two live production e-commerce platforms (Lotsy, Foxplay) and a full-stack Lead Management System with AI integration during internship. Comfortable across the entire development lifecycle - from REST API design and database modeling to responsive UI and deployment on Vercel/Netlify. Actively seeking a junior developer role where I can contribute immediately and grow fast.

EXPERIENCE

Tenup Software Services | Web Developer Intern | Dec 2025 – Apr 2026 · Vadodara

- Built and deployed a full-stack Lead Management System (React + Node.js + MongoDB) with role-based access control for Admin and Agent roles - used in real sales operations.
- Designed and developed two live Shopify e-commerce stores (lotsy.in, foxplayclothing.com) - both active and generating real sales; optimized for mobile-first performance and brand UX.
- Integrated an AI API to auto-generate lead summaries and follow-up messages, reducing manual sales communication effort.
- Built and consumed secure REST APIs with JWT-based authentication; managed MongoDB schemas for efficient lead data storage and retrieval.

PROJECTS

Lead Management System - React · Node.js · Express · MongoDB · AI API [Live Demo →](#)

- Architected a full-stack CRM-style app with role-based dashboards (Admin/Agent), lead tracking, and status management - deployed on Vercel as a working production app.
- Implemented secure REST APIs with Node.js/Express; designed MongoDB schemas for scalable lead data handling.
- Integrated AI API to generate lead summaries and smart follow-up messages, demonstrating practical AI integration skills.

E-Commerce Platform – Lotsy - Shopify · Liquid · HTML · CSS · JavaScript [Live Demo →](#)

- Designed and launched a fully functional fashion e-commerce store on Shopify - live and actively processing real customer orders.
- Customized Liquid templates, built responsive product pages, and optimized site performance for mobile-first users.

E-Commerce Platform – Foxplay - Shopify · Liquid · HTML · CSS · JavaScript [Live Demo →](#)

- Delivered a second production Shopify store with custom UI components, dynamic product collections, and cart functionality.
- Ensured cross-device responsiveness and brand-consistent design; site is live and used by real customers.

Freelance Marketplace Platform - PHP · MySQL · JavaScript · HTML · CSS

- Built a full freelancing platform from scratch - user auth, project posting, client-freelancer matching, and dynamic UI views.
- Designed normalized relational MySQL database schema and managed secure data flow between frontend and backend.

Python Web Scraping & Automation Tool - Python · Selenium · BeautifulSoup · Requests · Automation Scripts

- Built a Python-based web scraping and browser automation system to extract, filter, and structure data from target websites - reducing manual data collection effort significantly.
- Automated website navigation and dynamic content interaction using Selenium/Playwright; parsed and extracted structured data with BeautifulSoup and Requests.

- Implemented reusable scraping workflows with filtering logic and automated execution schedules, focused on productivity and reliable data collection at scale.
